1. Comment. These trains were possibly troop trains. 25X1

2. Comment. Most of these trains undoubtedly carried troops and personnel from the U.S.S.R. to East Germany.

3. Comment. The report is incomplete. 25X1

. A comparison of the two reports indicates that military supply traffic in September slightly increased over that observed in June. A total of 3,300 railroad cars was loaded and dispatched to the 26 railroad stations mentioned during the reported period. The corresponding figure for the Frankfurt/Oder railroad station during the same period was 2,158 railroad cars.
